

We have all worked with Sheriff Peter Meskill and can testify to the positive changes he made in the Sheriff's Department during his 12 year tenure as Sheriff. Before Peter's election in 1999, the Department was infamous for budget overruns, minimal training, and a lack of coordination with other criminal justice agencies. Peter turned all that around and has shown us what a professionally managed public safety agency can deliver in terms of community security and service. **We need to keep Peter Meskill as Sheriff if we are to continue his record of success and accomplishments and avoid backsliding to the old days of mismanagement and blatant disregard for taxpayer dollars. The key to that is your vote on Primary Day September 14th.** Please join us in voting for Peter and ensuring 4 more years of first rate public safety service in Tompkins County.
